Guide from CDC

Keeping the home safe Encourage your family members to...

All households

- Clean hands at the door and at regular intervals
- Create habits and reminders to avoid touching their face and cover coughs and sneezes
- Disinfect surfaces like doorknobs, tables, and handrails regularly
- Increase ventilation by opening windows or adjusting air conditioning

Households with vulnerable seniors or those with significant underlying conditions

Significant underlying conditions include heart, lung, kidney disease; diabetes; and conditions that suppress the immune system

- Have the healthy people in the household conduct themselves as if they were a significant risk to the person with underlying conditions. For example, wash hands frequently before interacting with the person, such as by feeding or caring for the person
- If possible, provide a protected space for vulnerable household members
- Ensure all utensils and surfaces are cleaned regularly

Households with sick family members

- Give sick members their own room if possible, and keep the door closed
- Have only one family member care for them
- Consider providing additional protections or more intensive care for household members over 65 years old or with underlying conditions

What every American and community can do now to decrease the spread of the coronavirus

Reported illnesses have ranged from mild symptoms to severe illness and death for confirmed coronavirus disease 2019 (COVID-19) cases.

The following symptoms may appear 2-14 days after exposure.*

SFPD Issues Warning About Fraudulent Door-to-Door Visitors 20-036

MARCH 27, 2020 | 4:53 PM

Share:     

San Francisco Police Department is receiving information about subjects going door to door and claiming to be employees of the Centers for Disease Control (CDC) or the San Francisco Department of Public Health (SFDPH). These subjects are apparently asking for entry into residences to conduct inspections or searches. Neither the CDC nor SFDPH have personnel going door-to-door conducting inspections.

City Disaster Services Workers and volunteers are placing informational door hangers in various neighborhoods. These persons will have City identification, and will **not** ask for permission to enter any residences or establishments.

If someone claiming to be with CDC or SFDPH calls at your door, do not let them in. Call [9-1-1](#) and provide the dispatcher with the suspect's description and as much detail as possible.

SFPD Warns Public About COVID-19 Scams

The San Francisco Police Department is aware of reports on in the news media and in social media about scams related to COVID-19. It is unfortunate that there are always those who will try to take advantage of people's fears during a crisis. During this time, SFPD and our law enforcement partners around the country want to warn the public about these frauds.

COVID-19 scams can come in the form of robocalls, emails or online sellers offering cures, tests or vaccinations. The people behind these offers may claim to be with the Centers for Disease Control and Prevention (CDC) and may claim to have special information or products available.

These are incredibly challenging times for all of us and we understand the desire to protect yourself and your family. But it's important to know that there currently are no vaccines, pills, potions, lotions, lozenges or over-the-counter products available to treat or cure COVID-19.

When dealing with unsolicited offers, keep in mind the adages, "Buyer beware," and "If it sounds too good to be true, it probably is."

If you receive a robocall, hang up. Don't press any numbers or answer any questions. Beware of text messages and emails offering cures, information or financial assistance related to COVID-19. Carefully research requests for donations. Don't send cash, gift cards, or wire money.

Protect Your Vehicle Against Catalytic Converter Theft & Prius Hybrid Battery Theft

Thieves are looking for fuel-powered vehicles manufactured after 1974 that have catalytic converters. Thieves often target taller vehicles (such as pickup trucks or SUVs and now Prius) because they can easily fit under the vehicle to access the catalytic converter. The location of your car may also be a factor like regularly parking in one area for a long period of time. When possible, park in well-lit areas and close to building entrances. If you have a garage at your house, park your vehicle inside and keep the garage door close.

Have the catalytic converter welded to your car's frame, which may make it harder to steal.

Consider engraving your vehicle identification number (VIN) on the catalytic converter — this may help alert a scrap dealer that it was stolen and make it easier to identify the owner.

Calibrate your car's alarm to set off when it detects vibration.

Protect Your Vehicle from Car Theft

- Never leave your car running or the keys in the ignition when you're away from it, even for "just a minute."
- Always roll up the windows and lock the car, even if it's in front of your home.
- Never leave valuables in plain view, even if your car is locked. Put them in the trunk or at least out of sight.
- Remove portable electronic devices such as smart phones and GPS navigation systems, including suction cup or bean bag type mounts. (Even the visible appearance of a suction cup ring on the glass windshield can be an enticement to a thief to break in and look for the GPS system.)
- Park in busy, well-lighted area.
- Carry the registration and insurance card with you. Don't leave personal identification documents or credit cards in your vehicle.
- When you pay to park in a lot or garage, leave just the ignition or valet key with the attendant. Make sure no personal information is attached. Do the same when you take your car for repairs.
- Install a mechanical locking device — commonly called clubs, collars, or j-bars — that lock to the steering wheel, column, or brake to prevent the wheel from being turned more than a few degrees. Use it!
- Investigate in security systems. You may get a discount on your auto insurance.

Park Smart!

THE KEYS TO
PARKED CAR
SAFETY ARE IN
YOUR HANDS!

If you love it, don't leave it.

DON'T TEMPT A CAR THIEF!

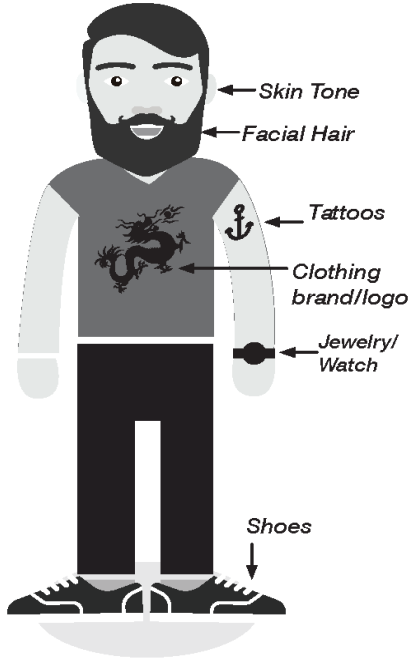

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

**Take everything
with you.**
