

Cops Making Change

Lacy's Barber Shop has been a cornerstone in the OMI for decades. Owner, Lacy, is a business owner who has been committed to his community for many years and has seen the neighborhood transform. Recently, Lacy's business fell victim to violence which destroyed the windows of his business. Like many business owners, damage to his barber shop can be costly and devastating to the beautification of the neighborhood. The officers of Taraval Station are rallying around Lacy and participating in a fundraising effort to help Lacy replace his windows and renew his store front. *Cops Making Change* is concept in which officers donate their spare change to help out others. At the end of each day, we all have change at the bottom of our pockets. While one person's change may not seem like much, when many of us put our change together we have an opportunity to make change in the community we serve. It's important we offer help to those who need it. We believe that every little bit can help and Lacy is incredibly deserving of the help we want to provide. Please take the time to donate, it will make a difference for Lacy and our community.
