Community Members,

In 1962, President John F. Kennedy signed a proclamation which designated May 15 as Peace Officers Memorial Day and the week in which that date falls as Police Week. Many businesses and community members across the nation, especially those who lost family members, friends or colleagues who were local officers, will lower their flags in remembrance of law enforcement officers killed in the line of duty. This is the time to remember those officers who lost their lives protecting the community they love and thank the officers who are current serving.

In this issue, you will find information on events that are happening in our district and around the city. This issue also contains the current crime statistics for robbery, burglary and auto burglary.

If you are reporting a crime in progress, dial 9-1-1. Also, call 9-1-1 to report fires, medical emergencies and any emergencies related to public safety.

To report a non-emergency incident (a crime that has already occurred and the suspects are gone) please call the SFPD non-emergency phone number at 415-553-0123 to have an Officer dispatched to meet with you.

You may also go to any SFPD district station to make a report or go to

SFPD Alert Community of Arrest Warrant Scam 19-052

Tuesday, May 07, 2019

San Francisco Police have received information that scammers are contacting residents claiming they have outstanding warrants or have committed crimes such as prostitution and must pay a fine. These scammers sometimes use technology known as "caller ID spoofing" to display the SFPD non-emergency phone number or other official looking phone numbers on the victim's caller ID.

San Francisco Police urge all members of the community to be suspicious of strangers calling for money to pay outstanding warrants or fines as this is not the correct procedure. Anyone who receives such a call should hang up immediately. Do not engage the caller in conversation and never give out personal information.

Anyone who has received such a call and provided either personal identification information (such Social Security or driver's license numbers) or given payment by any means, should file a police report in the jurisdiction of their residence.

Consumer Guide

'One Ring' Phone Scam

For illegal robocallers, the goal isn't always getting you to answer. Sometimes, it's getting you to call back.

Every so often, your phone may ring once and then stop. If that happens to you, and you do not recognize the number, do not return the call. You may be the target of a "one-ring" phone scam.

One-ring calls may appear to be from phone numbers somewhere in the United States, including three initial digits that resemble U.S. area codes. But savvy scammers often use international numbers from regions that also begin with three-digit codes – for example, "649" goes to the Turks and Caicos and "809" goes to the Dominican Republic. Such scammers may often use [spoofing](#) techniques, as well, to further mask the number in your caller ID display.

If you call any such number, you risk being connected to a phone number outside the U.S. As a result, you may wind up being charged a fee for connecting, along with significant per-minute fees for as long as they can keep you on the phone. These charges may show up on your bill as premium services.

Variations of this scam rely on phony voice-mail messages urging you to call a number with an unfamiliar area code to "collect a prize" or to notify you about a "sick" relative.

How to avoid this scam

- Don't answer or return any calls from numbers you don't recognize.
- Before calling unfamiliar numbers, check to see if the area code is international.
- If you do not make international calls, ask your phone company to block outgoing international calls on your line.
- Always be cautious, even if a number appears authentic.

Filing a complaint

If you are billed for a call you made as a result of this scam, first try to resolve the matter with your phone company. If you are unable to resolve it directly, you can file a complaint with the FCC at no cost. You have multiple options for filing a complaint with the FCC:

- File a complaint online at consumercomplaints.fcc.gov
- By phone: 1-888-CALL-FCC (1-888-225-5322); TTY: 1-888-TELL-FCC (1-888-835-5322); ASL: 1-844-432-2275
- By mail (please include your name, address, contact information and as much detail about your complaint as possible):

Protect Your Vehicle Against Catalytic Converter Theft

Thieves are looking for fuel-powered vehicles manufactured after 1974 that have catalytic converters. Thieves often target taller vehicles (such as pickup trucks or SUVs) because they can easily fit under the vehicle to access the catalytic converter. Also targeted are 2000's model Toyota's and Hondas. The location of your car may also be a factor like regularly parking in one area for a long period of time. When possible, park in well-lit areas and close to building entrances. If you have a garage at your house, park your vehicle inside and keep the garage door close.

Have the catalytic converter welded to your car's frame, which may make it harder to steal.

Consider engraving your vehicle identification number (VIN) on the catalytic converter — this may help alert a scrap dealer that it was stolen and make it easier to identify the owner.

Calibrate your car's alarm to set off when it detects vibration.
