

Taraval Station Newsletter

Hello Community Members,

We are still getting reports of catalytic converter thefts throughout the Sunset. Thieves are targeting vehicles that have a higher clearance like SUV's and Toyota Prius. As a safety precaution, consider having the catalytic converter welded to your car's frame, which may make it difficult to steal. Also engraving your vehicle's identification number (VIN) on the catalytic converter may help alert a scrap dealer that it was stolen and make it easier to identify the owner. Calibrate your car's alarm to set off when it detects vibration.

As a reminder to everyone, make sure to remove your garage door opener remote from your vehicle if you parked in front or close of your home. We are still receiving reports of victim's leaving their remote in their vehicles. The vehicles are burglarized and the suspect finds the remote and uses that to gain entry to your home.

We will have another Coffee with a Cop in March. The date and location are forthcoming.

- Compared to the same time last year (2019), the numbers year to date are as follows. Currently, we are down 2% in vehicle burglaries, 28% in burglaries and 5% in assaults. We are up 29% in robberies and 40% in vehicle thefts.

- Our next community meeting will be on Tuesday, March 17th at 6PM in the Taraval Station Community Room. I will be there to answer any of your questions or address any of your concerns. If you have any issues or topics you would like to discuss at a upcoming meeting please let me know ahead of time, so I can provide you with the relevant information. As always I am easily available through my email at Nicholas.Rainsford@sfgov.org.

If you are reporting a crime in progress, dial 9-1-1(415-553-8090 on cell phones) to report fires, medical emergencies or any emergency related to public safety. To report a non-emergency incident (a crime that has already occurred and the suspects are gone) please call the SFPD non-emergency phone number at 415-553-0123 to have an Officer dispatched to meet with you. Protect Your Vehicle Against Catalytic Converter Theft & Prius Hybrid Battery Theft

Thieves are looking for fuel-powered vehicles manufactured after 1974 that have catalytic converters. Thieves often target taller vehicles (such as pickup trucks or SUVs and now Prius) because they can easily fit under the vehicle to access the catalytic converter. The location of your car may also be a factor like regularly parking in one area for a long period of time. When possible, park in well-lit areas and close to building entrances. If you have a garage at your house, park your vehicle inside and keep the garage door close.

Have the catalytic converter welded to your car's frame, which may make it harder to steal.

Consider engraving your vehicle identification number (VIN) on the catalytic converter — this may help alert a scrap dealer that it was stolen and make it easier to identify the owner.

Calibrate your car's alarm to set off when it detects vibration.

Protect Your Vehicle from Car Theft

- Never leave your car running or the keys in the ignition when you're away from it, even for "just a minute."
- Always roll up the windows and lock the car, even if it's in front of your home.
- Never leave valuables in plain view, even if your car is locked. Put them in the trunk or at least out of sight.
- Remove portable electronic devices such as smart phones and GPS navigation systems, including suction cup or bean bag type mounts. (Even the visible appearance of a suction cup ring on the glass windshield can be an enticement to a thief to break in and look for the GPS system.)
- Park in busy, well-lighted area.
- Carry the registration and insurance card with you. Don't leave personal identification documents or credit cards in your vehicle.
- When you pay to park in a lot or garage, leave just the ignition or valet key with the attendant. Make sure no personal information is attached. Do the same when you take your car for repairs.
- Install a mechanical locking device — commonly called clubs, collars, or j-bars — that lock to the steering wheel, column, or brake to prevent the wheel from being turned more than a few degrees. Use it!
- Investigate in security systems. You may get a discount on your auto insurance.

Park Smart!

THE KEYS TO
PARKED CAR
SAFETY ARE IN
YOUR HANDS!

If you love it, don't leave it.

DON'T TEMPT A CAR THIEF!

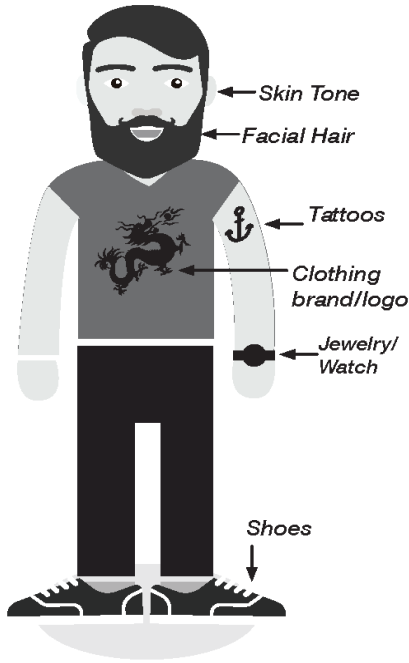

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

**Take everything
with you.**
