Hello Community Members,

Taraval Station receives a lot of calls and emails from the community about certain issues that arise in the district. The complaints vary from quality of life issues, noise complaints, and neighbor disputes just to name a few. As always, we take every issue seriously and our officers address them on a regular basis. One issue that is concerning to us is traffic. We are in week 7 of Shelter in Place. People are working from home and not going out much and as a result there are less vehicles on the road. We have seen an increase in vehicles speeding down our streets and through neighborhoods. We need to remember to follow the traffic laws at all times even when traffic is light. It is important to remember to slow down, make complete stops at stops signs, and yield the right of way to pedestrians. These laws are in place to keep everyone safe when driving a motor vehicle. Let's remember to slow down to prevent any traffic accidents from occurring. Our officers are out every day patrolling the streets and enforcing traffic laws. We conduct monthly traffic operations and focus on areas in our district that need special attention to ensure everyone's safety. If you have any information regarding traffic in your area, please let us know.

As always, stay safe and be well.

- Compared to the same time last year (5/10/2019), the numbers year to date are as follows: Currently, we are down 17% in vehicle burglaries, 19% in burglaries, 42% in assaults, 17% in robberies, and 5% in vehicle thefts. Officers are still out in your neighborhood patrolling the streets and enforcing the law.

-If you are reporting a crime in progress, dial 9-1-1(415-553-8090 on cell phones) to report fires, medical emergencies or any emergency related to public safety. To report a non-emergency incident (a crime that has already occurred and the suspects are gone) please call the SFPD non-emergency phone number at 415-553-0123 or you can go online to file a report at <https://www.sanfranciscopolice.org/get-service/police-reports/file-police-report>

Combating Hate Crimes

San Francisco District Attorney's Victim Services Division

The Victim Services Division of the San Francisco District Attorney's Office strives to make the criminal justice system humane and accessible by providing support and assistance to victims and their families in the aftermath of a crime, during criminal prosecution, and after a verdict has been reached. Even if justice is served in the court room, it does not always immediately change the way victims feels in their day-to-day lives afterwards.

Our division provides victims with advocacy, streamlines the process for collecting restitution and recouping compensation for financial losses when possible, and, in general, works tirelessly to support victims regain control over their lives.

VSD provides referrals for victims of violent crimes for:

- Crisis support services and counseling.
- Guidance in navigating the criminal justice system and providing case information.
- Emergency assistance: relocation, transportation and safety planning.
- Referral to local resources and services- employment, medical/dental, mental health, housing and childcare.
- Funeral and Burial expenses

Please contact them for more information if you are, or have been, a victim of crime.

SFPD Issues Warning About Fraudulent Door-to-Door Visitors (Updated re: Environmental Health Inspections of SROs) 20-036(a)

MARCH 30, 2020 | 12:55 PM

Share:     

The San Francisco Police Department is receiving information about subjects who may be going door to door claiming to be employees of the Centers for Disease Control (CDC) or the San Francisco Department of Public Health (DPH). These subjects are apparently asking for entry into residences to conduct inspections or searches.

We want the public to know that the San Francisco Department of Public Health (DPH) is sending health inspectors to conduct inspections at SRO hotels. SRO building owners and managers were notified in advance that health inspectors will be asking for entry to enforce Health Order C19-04. Under this order, each of the approximately 500 SROs will be checked to see if:

1. the order has been posted and delivered to each tenant
2. the community areas are being cleaned and disinfected daily and a cleaning log is being maintained
3. the bathrooms have soap for all sinks or sanitizer if there is no sink.

DPH health inspectors can validate their identity by presenting their City Disaster Service Worker (DSW) ID, DPH employee ID, and Health Inspector Badge.

Additionally, City Disaster Services Workers and volunteers are placing informational door hangers in various neighborhoods. These persons will have City identification, and will not ask for permission to enter any residences.

Neither the CDC nor SFDPH have personnel going door-to-door conducting inspections of private residences.

As for other City residents who are not living in or managing an SRO building, if someone claiming to be with the DPH or Center for Disease Control (CDC) calls at your door, do not let them in. Call 9-1-1 and provide the dispatcher with the suspect's description and as much detail as possible.

SFPD Warns Public About COVID-19 Scams

The San Francisco Police Department is aware of reports on in the news media and in social media about scams related to COVID-19. It is unfortunate that there are always those who will try to take advantage of people's fears during a crisis. During this time, SFPD and our law enforcement partners around the country want to warn the public about these frauds.

COVID-19 scams can come in the form of robocalls, emails or online sellers offering cures, tests or vaccinations. The people behind these offers may claim to be with the Centers for Disease Control and Prevention (CDC) and may claim to have special information or products available.

These are incredibly challenging times for all of us and we understand the desire to protect yourself and your family. But it's important to know that there currently are no vaccines, pills, potions, lotions, lozenges or over-the-counter products available to treat or cure COVID-19.

When dealing with unsolicited offers, keep in mind the adages, "Buyer beware," and "If it sounds too good to be true, it probably is."

If you receive a robocall, hang up. Don't press any numbers or answer any questions. Beware of text messages and emails offering cures, information or financial assistance related to COVID-19. Carefully research requests for donations. Don't send cash, gift cards, or wire money.

Protect Your Vehicle Against Catalytic Converter Theft & Prius Hybrid Battery Theft

Thieves are looking for fuel-powered vehicles manufactured after 1974 that have catalytic converters. Thieves often target taller vehicles (such as pickup trucks or SUVs and now Prius) because they can easily fit under the vehicle to access the catalytic converter. The location of your car may also be a factor like regularly parking in one area for a long period of time. When possible, park in well-lit areas and close to building entrances. If you have a garage at your house, park your vehicle inside and keep the garage door close.

Have the catalytic converter welded to your car's frame, which may make it harder to steal.

Consider engraving your vehicle identification number (VIN) on the catalytic converter — this may help alert a scrap dealer that it was stolen and make it easier to identify the owner.

Calibrate your car's alarm to set off when it detects vibration.

Protect Your Vehicle from Car Theft

- Never leave your car running or the keys in the ignition when you're away from it, even for "just a minute."
- Always roll up the windows and lock the car, even if it's in front of your home.
- Never leave valuables in plain view, even if your car is locked. Put them in the trunk or at least out of sight.
- Remove portable electronic devices such as smart phones and GPS navigation systems, including suction cup or bean bag type mounts. (Even the visible appearance of a suction cup ring on the glass windshield can be an enticement to a thief to break in and look for the GPS system.)
- Park in busy, well-lighted area.
- Carry the registration and insurance card with you. Don't leave personal identification documents or credit cards in your vehicle.
- When you pay to park in a lot or garage, leave just the ignition or valet key with the attendant. Make sure no personal information is attached. Do the same when you take your car for repairs.
- Install a mechanical locking device — commonly called clubs, collars, or j-bars — that lock to the steering wheel, column, or brake to prevent the wheel from being turned more than a few degrees. Use it!
- Investigate in security systems. You may get a discount on your auto insurance.

Park Smart!

THE KEYS TO
PARKED CAR
SAFETY ARE IN
YOUR HANDS!

If you love it, don't leave it.

DON'T TEMPT A CAR THIEF!

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

**Take everything
with you.**
